Estate Series Mantels

ESTATE SERIES MANTELS

The Story of Wohners Inc

Ferenc Wohner, a master furniture maker from Budapest Hungary, founded Wohners in 1909. He had a large factory for his time and had much success making furniture for the aristocracy of Europe. However as the communist change occurred, his business was taken over by the government. Following the failed uprising of 1956, his two sons Ferenc and John escaped to the United States leaving behind the factory and home their father built. The rest is an American success story. Cash poor but rich in artistry and skill, Ferenc founded a furniture making business in Rhode Island and John founded the present day Wohners with his son Robert. The tradition lives on with Robert's sons, the fourth generation of Wohners.

Estate Series Mantels -Pages 3-12

Wohners is proud to offer its premium line of carved wood mantelpieces. Each piece is painstakingly carved by the hand of a master woodcarver and originates from a Wohners masterpiece design. All pieces in the Estate collection are made of a light colored hardwood called Linden, the age-old favorite of wood-carvers. Designed with today's new homes in mind, they are made to accommodate most common firebox sizes and kept in stock for immediate delivery. The quality of these pieces is unmatched in both depth and detail and exemplifies the highest level of the carver's art.

Custom Mantels -Pages 13-16

Four generations of experience and thousands of installations speak for themselves. Browse the photos of a few custom designs we have produced. Some are creations using our standard components while others are individual unto themselves.

We also carry an extensive line of Architectural Wood Products.

Visit us on the web at www.wohners.com and view our extensive line of carvings (cornices, onlays, mouldings, and more). If you are ever in the New York metro area, please stop by and visit our showroom. You'll be able to see our complete line of mantels and Architectural products, as well as one-of-a-kind custom items.
